

ILLUMINATE SPEAKER SERIES

SENSOR MONITORING TO MEASURE AND SUPPORT ACTIVITIES OF DAILY LIVING

FOR INDEPENDENTLY LIVING OLDER PERSONS

APRIL 8, 2019 · 12:00 - 1:00PM

Apotex Centre, Room 071 · 750 McDermot Ave. · Bannatyne Campus

Speaker: DR. MARGRIET POL

Margriet Pol began working as an occupational therapist in the Netherlands in 1984. Her expertise is in the area of geriatric rehabilitation, self-care, housing, environment, cognitive functioning, primary health care and health-care technology. In February 2019 she finished her PhD research on sensor monitoring to support everyday functioning of older individuals living independently at home, for which she received a grant from the Netherlands Organisation for Scientific Research (NWO).
